

Undergraduate Research Opportunity (URO) in Sustainable Water Use

The new NSF-funded Center for Sustainable Water Use (CREST-SWU) is looking for undergraduate students to assist with various research projects starting January 2020 (and continuing through 2024).

Benefits:

- Up to \$3,000 per semester.
- Collaborate with faculty and graduate students.
- Develop hands-on research skills valued by employers and graduate schools.

Eligibility :

- U.S. citizens or permanent residents only.
- Enrolled in Engineering at TAMUK.
- At least sophomore standing.
